PROFILE

I am a Hardworking and initiative-taking person who always strives to improve his knowledge as well as social skills. Have a strong passion for coding & innovation, and I work well in teams and on my own.

EDUCATION

University of Jordan

BSc. In Computer Science
Graduated in 2019

Graduation project was a web-based application that helps the local stores to sell their handmade products on a web platform, Using JavaScript and NodeJS with my project advisor Dr.Heba Sa'adeh.

National ICT Upskilling Program at Al Hussein Technical University 300 credit hours in Unity3D AR/VR 180h,

Soft skills 60h and English language 60h.

SKILLES

Unity 3D	**180 Hours training in the KADDB VR/AR labs.** **Developed several apps in AR (Image recognition, Object recognition, Face tracking, Body tracking, Plane tracking) during the training and as a personal projects.** **I have Developed a Cars driving simulation in VR.** **Building a Call of Duty and need for speed clones.** **I have developed an AI driving simulation.**
JavaScript	**I have Used JavaScript for my graduation project.** **Took the Complete 2019 Web Development Bootcamp at Udemy.** **I have used JavaScript to build projects like to do list, drum kit and blog Web Site.** **Building a twitter back-end clone.**
React JS	**I have used React & redux for building a twitter clone.**
HTML 5, CSS 3, SASS	**I have used them for building a lot of small and large projects.**
C++	**Started my journey in programming with C++ and learned the concepts of data structure in this language, then I started working with Unreal Engine 4.**
3D Assets modeling	**Using Blender, I have started a huge project for building an educational game.** **As well as AutoCAD to plan real world buildings for Unreal Engine 4.**
Machine learning	**A Machine learning course by Stanford University with Prof. Andrew Ng and gave me a good understanding of Linear Regression, Logistic Regression, Regularization and Neural Networks.**
Problem-solving	**I am used to solve problems on code forces to train my mind for real world problems.**
Soft skills	**60 Hours training course in AL-Husain Technical University focusing on public speaking, writing skills and teamwork.**
Creativity	**Participating in innovation competitions at the University of Jordan.**
